Indicative Content

- The student is required to actively engage in securing and successfully completing a work placement of an agreed duration, in a work setting approved by WIT.
- Attendance at presentations on work placement, CV preparation and job interview techniques.
- At the outset of the Placement, the student will complete a Learning Agreement, using the approved template, in consultation with the Placement Coordinator and the Supervisor. The Learning Agreement details for the student the start and end dates of the placement, the intended learning outcomes, tasks and requirements, etc.
- Students will be required to meet with their workplace and college mentors to discuss their progress.

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Apply and develop knowledge, skills and competencies to the analysis and solving of workplace problems, thereby integrating relevant practical work experience with academic theory. Where possible, demonstrate new skills and knowledge acquired from engagement with work placement.
2. Communicate effectively in an appropriate and professional manner and have developed appropriate communication and interpersonal skills.
3. Determine and present personal skills and competencies along with strengths and areas for further growth and development. These include communication, problem solving, teamwork, etc.
4. Demonstrate personal autonomy and take responsibility for their own work and behaviour in work

Learning and Teaching Methods

- Workshops and pre-placement meetings to help students secure and prepare for work placement, covering areas such as CV preparation and job interview techniques.
- Review with the work placement co-ordinator and workplace supervisor / mentor.
- Practical in-placement learning in the workplace, with supervision by a designated mentor in the place of employment.
- Ongoing support of the work placement co-ordinator.
